Tech Support Department!*

## Wi-Fi Wireless Network Security

**\$49.99**

A recent review of several North Central neighborhoods revealed HUNDREDS of OPEN & INSECURE wireless networks! Call QUALITECH now to secure your network - no charge if we find your network is already secure.

Here are just a few examples of the hazards if your network is NOT secured:

- ◆ Neighbors, hackers, anyone in range of your network could possibly access your data and files.
- ◆ Hackers with sophisticated tools can intercept your network traffic, exposing you to identity theft or financial loss!
- ◆ Spammers, child pornographers, and illegal music downloaders using YOUR internet connection can subject YOU to scrutiny by law enforcement officials who trace YOUR connection as the source of the illegal activity!

\$49.99 includes securing router and one wireless PC, additional wireless PCs secured for \$19.99 each. Offer expires April 2006, regular price \$69.99.

## Voice over IP Telephone Line

**\$4.99 !**

Teens tying up the phone line? Using up all your cell plan minutes? Get an extra phone line starting at just \$4.99/month! Make and receive calls using a regular phone, a wireless (or wired) VoIP phone, or your PC !

- ◆ VoIP packaged-minute plans start at just \$4.99 monthly with no contracts, no commitments.
- ◆ Unlimited calling plans start at only \$19.99 monthly, no contracts!
- ◆ This is a fantastic opportunity to experience all the added features and benefits of Voice over IP, at super low prices!

Requires broadband connection and router (not included). VoIP telephone adapter is included on Unlimited Plans, extra cost on other plans (if needed). Activation fees and other charges apply, call for complete details. VoIP service will be provisioned through myPhoneCompany™.
